

WESTPAC NEW ZEALAND STAFF SUPERANNUATION SCHEME

DEFENSIVE FUND

FUND UPDATE

for the Scheme year ended 30 June 2020

This fund update was first made publicly available on 24 September 2020.

What is the purpose of this update?

This document tells you how the Defensive Fund (Fund) has performed and what fees were charged. This document will help you to compare the Fund with other funds. Westpac New Zealand Staff Superannuation Scheme Trustee Limited, the Scheme's trustee, prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund invests in assets with a low-to-moderate risk of negative returns and with moderate fluctuations in returns. It is unlikely to achieve high returns. The investment return objective aims to provide above-average investment returns while maintaining the real value of investments over the short-to-medium term.

Total value of the Fund	\$59,020,662
Number of investors in the Fund	799
The date the Fund started	1 October 1996

What are the risks of investing?

Risk indicator for the Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the five-year period to 30 June 2020. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Scheme’s product disclosure statement for more information about the risks associated with investing in the Fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	2.77%	2.01%
Annual return (after deductions for charges but before tax)	3.68%	2.62%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax) (composite index)	3.83%	2.61%

See Note 1 on page 5 for additional information about the composite index.

This shows the return after fund charges and tax for each of the last 10 years ending 30 June. The last bar shows the average annual return for the last 10 years, up to 30 June 2020.

The Fund’s returns are shown after deductions for fund charges and tax. The market index returns are before any deductions for fund charges and tax.

Important: This does not tell you how the Fund will perform in the future.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2020, these were:

	Percentage of net asset value
Total fund charges	0.31%*
Which are made up of:	
Total management and administration charges	0.31%
Including –	
Manager’s basic fee	0.31%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
	n/a

*The Trustee expects fees to be lower in the next Scheme year. See the current estimated fees in the Product Disclosure Statement for more information.

There are no performance fees for any of the funds in the Scheme.

Investors may also be charged individual action fees for specific actions or decisions (for example, fees for investment fund switching (beyond the two free switches per Scheme year) or fees relating to a withdrawal to support a home purchase). See the Scheme’s product disclosure statement for more information about these fees.

All fees are inclusive of GST (if any).

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Mary had \$10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Mary received a return after fund charges were deducted of \$262 (that is 2.62% of her initial \$10,000). Mary also paid \$0.00 in other charges. This gives Mary a total return after tax of \$201 for the year.

What does the fund invest in?

Actual investment mix

Further information

You can also obtain this information, the product disclosure statement for the Scheme and some additional information from the offers register at disclose-register.companiesoffice.govt.nz.

The Scheme's statement of investment policy and objectives is available from the schemes register at disclose-register.companiesoffice.govt.nz.

Notes

1. The annual return on the composite index (including relevant market indices and peer group index) has been used in the following ways, because there is no appropriate market index for the Fund as a whole:
 - o *What are the risks of investing?:* To calculate and fill in the risk indicator; and
 - o *How has the fund performed?:* In the table relating to how the Fund has performed and in the bar graph.

A composite index may be a less reliable indicator of performance than an appropriate market index. The risk indicator may provide a less reliable indicator of the potential future volatility of the Fund because a composite index has been used. The composite index has been used for the period from 1 July 2017. The return for the peer group index used in the composite index and reflected in the table and bar graph is net of fund charges and trading expenses (if any) but before tax. Imputation credits are included in the composite index. Additional information about the peer group index and market index is available on the offers register at disclose-register.companiesoffice.govt.nz.

2. May include investments in listed infrastructure assets and hedge funds.
3. Francois Richeboeuf has not been named in a previous fund update for the Fund.
